### E

### Sectores compatibles

\*El uso de infraestructura (If) es compatible en todas las políticas.

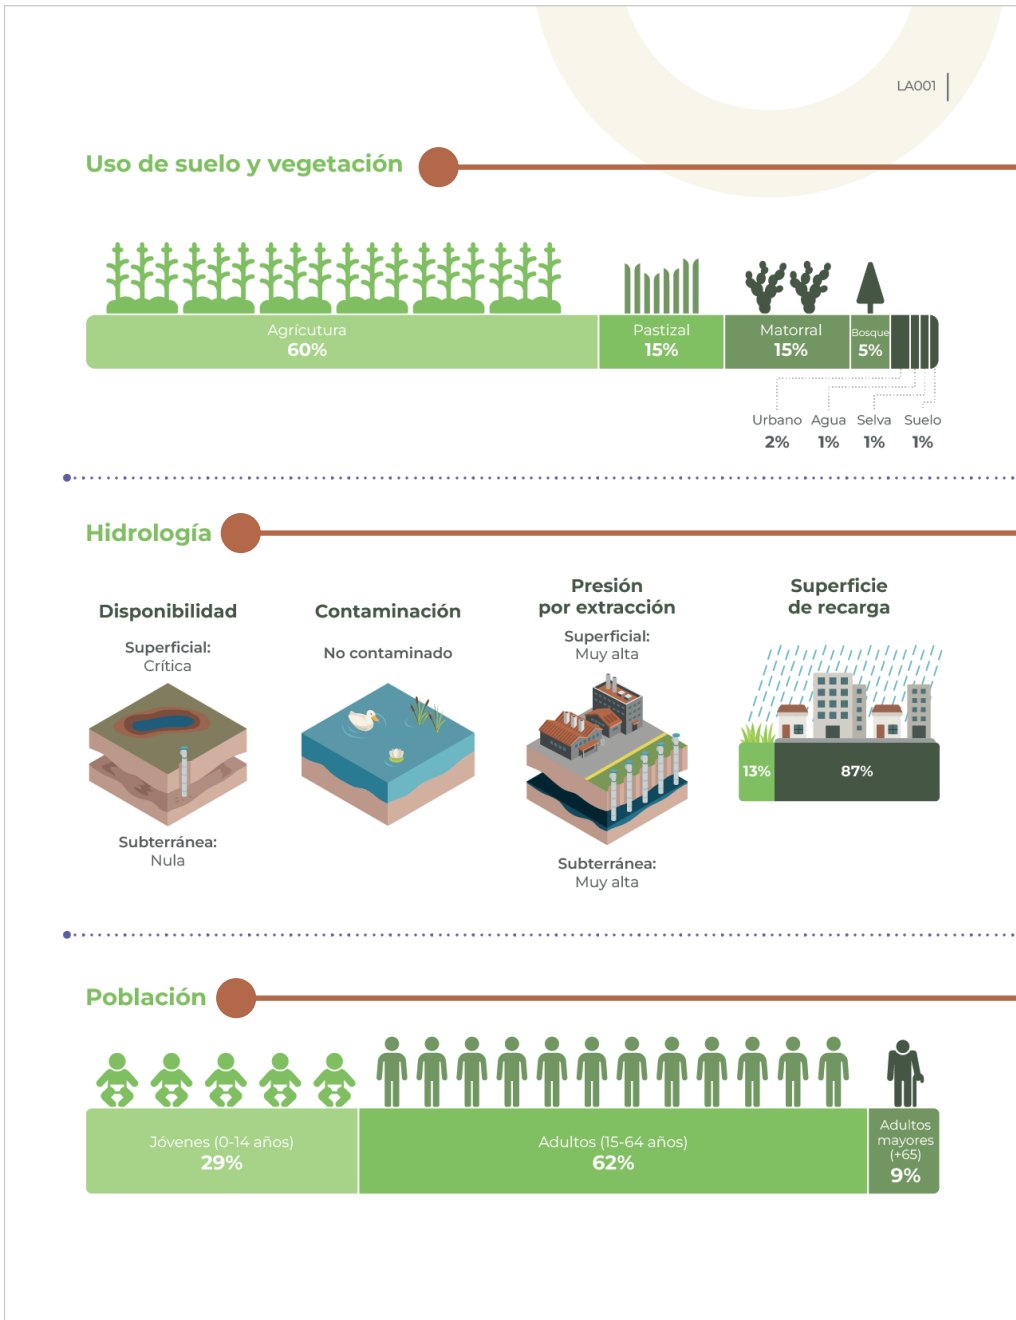

### F

### Problemáticas

- A. Forman parte de la visión que se espera en la UGA, y se enfocan a las políticas ambientales instauradas por la LGEEPA y el documento técnico del Ordenamiento Ecológico del Estado de Jalisco.
- B. La estrategia ecológica permite el cumplimiento de la política ambiental y el lineamiento ecológico que se asignó a cada UGA para atender los diferentes conflictos ambientales.
- C. Consisten en una serie de normas, reglas o recomendaciones para poder realizar las diferentes actividades o usos compatibles cuyo objetivo es establecer las condiciones para ciertos usos que necesitan tener restricciones y no generar conflictos ambientales.
- D. Porcentaje de la superficie de la UGA que corresponde a cada política.
- E. Se refiere a los usos que son compatibles con la política.
- F. Problemas socioambientales que tienen incidencia en la UGA.

### Sectores compatibles

\*El uso de infraestructura (If) es compatible en todas las políticas.

### Problemáticas

## Uso de suelo y vegetación

## Hidrología

### Disponibilidad

Superficial:  
Nula

Subterránea:  
Nula

### Contaminación

No contaminado

### Presión por extracción

Superficial:  
Muy alta

Subterránea:  
Muy alta

### Superficie de recarga

## Población

Jóvenes (0-14 años)  
31%

Adultos (15-64 años)  
60%

Adultos mayores (+65)  
9%
